

**CURING THE RHEUMATISM.**—The father and mother of a young girl afflicted with rheumatic pains determined on curing her; and, according to the advice of one of those female physicians who are to be found in every village, they placed the girl in oven where she expired in a after about thirty-five minutes suffering. Brought before the tribunal of Correctional Police of Autun, the father and mother, who were proved to have behaved tenderly towards their daughter, and the female doctor, were condemned, the first to a fine of five francs, and the other to five days imprisonment.—*French Paper.*
